SAMPRODUCTS

Air Curtain

Our air curtains are expertly engineered to create an invisible barrier of high-velocity air that separates different temperature zones, effectively preventing the loss of heated or cooled air when doors are frequently opened. Mounted above doorways, these innovative appliances maintain a controlled indoor climate, reducing energy consumption and significantly cutting down on heating and cooling costs.

Why choose our Air Curtains?

Our air curtains provide unmatched versatility and efficiency, with various mounting options and customizable features such as filters and heating elements to fit different environments. They perform exceptionally well in diverse settings, including cold storage, high-altitude shelters, laboratories, and hospitals, helping to maintain stable indoor temperatures and blocking contaminants like dust, insects, and pollen.

Crafted from high-quality materials like mild steel, stainless steel, and aluminum, our air curtains are designed for durability and optimal performance. They offer low noise, minimal vibration, and continuous airflow, making them ideal for businesses looking to enhance energy efficiency and maintain excellent environmental control.

YOUR TRUSTED PARTNER IN **INNOVATION AIR AND CLEAN ROOM SOLUTIONS**

Air Shower

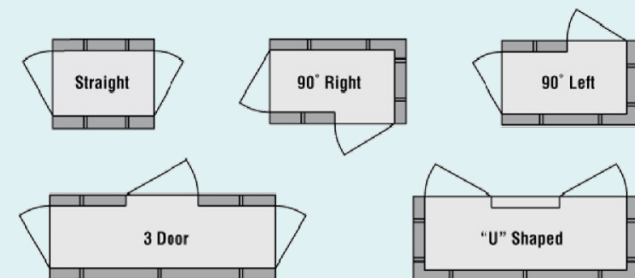

Our high-quality air showers are designed for effective decontamination before entering clean rooms. Built under expert supervision with superior components and advanced machinery, they comply with industry standards. The new generation of air showers incorporates microprocessors for easy use and time efficiency. Available in various configurations, they can have two or three doors, different entry/exit orientations, and standard or special flooring.

YOUR TRUSTED PARTNER IN **INNOVATION AIR AND CLEAN ROOM SOLUTIONS**

Air Shower available as?

- A. STRAIGHT ENTRY LEFT EXIT TYPE.
- B. U TYPE AIR SHOWER
- C. TOP LOADED AIR SHOWER.
- D. TUNNEL TYPE AIR SHOWER.
- E. EXPLOSION PROOF AIR SHOWER.
- F. SINGLE DOOR LIFT AIR SHOWER.
- G. MULTI DOOR AIR SHOWER.

Air Shower may be Two Door or Three Door. Air Shower may have Existing Flooring or Special Flooring. These New Hybrid Air Showers a.k.a Negex have more built in safe features & incorporate better end user requirements.

Clean Rooms

We specialize in designing and manufacturing high-quality clean rooms that meet stringent industry standards. Our clean rooms are meticulously engineered to provide controlled environments with low levels of pollutants such as dust, airborne microbes, and chemical vapors. Built with premium materials and advanced technology, our clean rooms are designed to support various applications across industries like pharmaceuticals, biotechnology, electronics, and healthcare, where maintaining a contaminant-free space is crucial for quality and safety.

Why our clean rooms?

Choosing Sam Products Pvt. Ltd. for your clean room needs means opting for unmatched expertise and reliability. We are committed to delivering custom solutions that perfectly align with your specific requirements, ensuring optimal performance and compliance with industry regulations.

Our team of skilled professionals works closely with you throughout the design, fabrication, and installation process to ensure every detail meets your standards. With a focus on innovation and customer satisfaction.

YOUR TRUSTED PARTNER IN **INNOVATION AIR AND CLEAN ROOM SOLUTIONS**

Clean Room Garment Stocker

Garment Stockers are for High End Requirements involving Storage of Garments used in Radio Active / Chemical / Bio Environment/ etc. The Stockers have Controlled Negative Air Pressure to avoid Leakage during the Use. The Stockers Purify the Air before Discharge to connected Exhaust. The Garment Stockers are available in Standard Sizes for various applications, such as 1m wide and 2m wide. Garment Stockers are Fabricated using High Grade Steel Sheets, Special Leak Proof Gaskets. Rich Industrial Experience & Customer Feedback followed by Strict Inspections at each Step for various Quality Parameters ensures End User Satisfaction.

Features:

- Auto Negative Pressure to Avoid Reverse
- Air Flow towards User
- Auto Lock after Use
- Easy Removal of Bins
- Easy Maintenance

YOUR TRUSTED PARTNER IN **INNOVATION AIR AND CLEAN ROOM SOLUTIONS**

Pass Box

Our pass boxes are designed for efficient and safe transfer of materials between clean rooms or from clean rooms to non-sterile areas without compromising the controlled environment. Fabricated from high-quality galvanized steel or stainless steel of different grades, these pass boxes are available with or without airflow, based on specific requirements. They can be equipped with various features, such as auto-close and open windows, conveyors for material transfer, and accessories like UV lights, lamps, video/audio systems, and alarms.

YOUR TRUSTED PARTNER IN **INNOVATION AIR AND CLEAN ROOM SOLUTIONS**

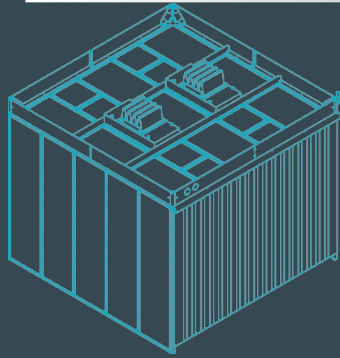

Why choosing our pass box ?

Our pass boxes are designed with electronic interlocking controlled by microprocessors, ensuring secure and efficient operation. Built to withstand various industrial demands, they offer customizable solutions that enhance workflow, maintain sterility, and improve safety. With a range of configurations and additional features, our pass boxes provide reliable and effective solutions for maintaining clean room integrity, making them a preferred choice for businesses across different sectors.

SAMPRODUCTS

Clean Room Garment Stocker

Sampling Booth

We bring forth for our Clients an extensive collection of High Quality Sampling Booth that is used to Control the emission of Powder, Dust or Vapors. Sampling Booth is suitable for use in Pharmaceutical Industry. The Booth is Manufactured by making use of Quality fine Raw Material and Pioneering Technology as per the set current Industry norms. Furthermore, our Valuable Clients can avail this Sampling Booth in Customized and Standard Specifications as per their Needs

Features:

- Available in all sizes
- Stainless Steel Sheet 202,304,316 L
- Filtration Suitable for 0.3 micron particle size
- Existing Flooring
- Easy Maintenance
- Noiseless and Vibration Free
- Accessories such as Manometer, UV Light, Hourmeter

Sticky Mate

We Offer Sticky Mats with different color options and can be offered with High, Medium and Low Stickiness values. These Mats find extensive use in Industry Sectors like Electronics, Computer, Pharmaceutical and other Sectors. Sticky Mats assist in reducing Dust Inflow to a Perfect Clean Room Environment. Multiple layers of Polyethylene Film come Laminated for optimum performance. Every Mat Layer comes Coated with adhesives with High, Medium and Low Stickiness property. Easy and Durable to use, Easy usage involves removing the Top Contaminated Layer that reveals Fresh Mat Layer.

Features:

- Offered with High, Medium and Low - Stickiness Values
- Every Mat Layer Comes Coated with Adhesives
- Act as a Barricade for Sterile Environments
- Bottom of the Mat is also stuck, which - keeps it firmly in place
- Can be placed on any type of Floor
- Multi-layer Finish allows for quick and effective removal of Dirt from soles of Shoes.
- Multiple Layers of Polyethylene film that comes Laminated.
